I guess I missed your deadline. I am sitting in my car in line for the Wednesday 7:15, contemplating your question.

My suggestion would be to offer the lower car rate to senior island residents on Mondays and Tuesdays. Retired folks have the flexibility to travel on other days, but on a fixed income, one has to choose the low rate day. So, this suggested change wouldn't reduce total fares, it would only redistribute some of the traffic.

Best regards,
Allison Morrill
