VESSEL UPDATE

BATTERY STEELE

Work on the tonnage openings is near completion. Elliot Bay Design Group has designed the boxes for the needed ballast, and Senesco will begin fabrication in the next week. Once this work is completed and ballast is added, MSC will need to reissue a stability letter. Current delivery date is 10/29/2026.

Terminal

Security

On the evening of August 27, 2026, a police pursuit that began elsewhere in Portland ended at the Casco Bay Lines terminal. The individual being pursued crashed a vehicle on the property and fled into the outdoor terminal area, where three Portland police officers discharged their weapons. No passengers or employees were involved in this incident.
