VESSEL UPDATE

BATTERY STEELE:

This month, SENESCO continued to progress on electrical work and equipment installation. ABB the propulsion integrator is on sight installing the batteries. Passenger benches are being installed. Due to the large storm that impacted Rhode Island with up to 35 inches of snow Senesco has added 3 days to the completion date.

DRYDOCKS:

The Maquoit is currently at the Portland Shipyard. The USCG has completed the hull inspection. Work is progressing ahead of schedule. The boat should return by the last week of March.

Down Time:

Nothing to report.

Timeliness:

Nothing to report.

Terminal

Security

The New signage and the added security continue to help with issues in and around the terminal. No new issues to report.

Freight Shed

Nothing to report

SAFETY

One shoreside and 1 deckhand are currently on light duty.

STAFFING

We are currently fully staffed. We have posted internally for additional captains for the upcoming summer season.

Training

1 Deckhand is currently going through the Designated Senior Deckhand training for the Machigonne. Portland Public Health Division was onsite conducting Narcan training for front line staff.
